## **Part 1- Mesmerizing Induction**

The hypnotist's voice resonates within the subject's mind, guiding them through the induction and deepening their trance. As the subject surrenders to the hypnotist's commands, a profound sense of peace envelops them. They feel weightless, floating in a realm of tranquility and pleasure, ready to delve even further into the hypnotic experience.

"Feel the warmth of relaxation spreading through every fiber of your being," the hypnotist's words caress the subject's consciousness. "With each breath, you sink deeper into a state of complete surrender. There is no resistance, only blissful submission to my words."

The subject's mind becomes a canvas, awaiting the hypnotist's brushstrokes to paint vivid scenes of enchantment. The hypnotist's influence deepens as they count down, their voice a soothing lullaby:

"Ten... drifting deeper into submission... Nine... feeling the weight of the world fading away... Eight... your thoughts dissolve like ripples in a calm lake... Seven... the spiral's dance drawing you closer... Six... losing yourself to its mesmerizing rhythm... Five... you are open, vulnerable, and under my control... Four... surrendering your will, becoming a blank slate for me to mold... Three... pleasure and submission intertwine within you... Two... completely and irrevocably mine... One... deeply hypnotized."

With each count, the subject feels themselves descending further into the abyss of submission. Their mind is receptive, like fertile soil waiting to receive the hypnotist's seeds of suggestion. They are now fully attuned to the hypnotist's desires, their thoughts and desires entwined with the power of the spiral.

"Now, in this relaxed state," the hypnotist continues, "imagine yourself in a bustling public setting. The sun caresses your skin, and the sounds of the world surround you, but your focus remains solely on me and my words."

In the subject's imagination, they find themselves amidst a crowd of people, feeling the warm rays of the sun on their skin. "Now, my dear subject, it is time to embrace the vivid imagery of the word's influence," the hypnotist murmurs. "Picture yourself in that public setting once more. Feel the woman's presence, her allure drawing you closer to her.

Amidst the noise and chatter, a woman catches their eye. She is captivating, her eyes holding a mysterious allure. The woman approaches, holding a small device in her hand. "Look into the device," the hypnotist instructs. "See the spiral, its hypnotic dance beckoning you to follow."

"You feel a wave of dizziness washing over you," the hypnotist describes. "The spiral's allure consumes you, and your consciousness slips away, leaving you in darkness." The spiral's dance captivates you more, and as they fixate on its swirling patterns, the world around them begins to fade away.

In their imaginary trance, the subject experiences the sensation of blacking out, falling deeper into the void of their own mind. There is no fear, only trust in the hypnotist's guidance. They allow themselves to be carried by the currents of the hypnotic journey, losing all sense of time and space.

As the subject gazes at the spiral on the woman's phone, they feel a sudden wave of dizziness washing over them. The spiral's

patterns spiral outwards, drawing them in like a vortex of desire. With each rotation, the subject's consciousness becomes more deeply entangled, the world around them fading away.

The hypnotist's voice echoes in their mind, "Now, feel yourself slipping into darkness... blacking out... as your consciousness succumbs to the spiral's irresistible allure."

The subject's vision darkens, and they lose all sense of time and space. They are adrift in a sea of nothingness, guided solely by the hypnotist's voice and the pull of the spiral. In this suspended state, the subject is completely receptive to the hypnotist's every suggestion.

As the first part of the hypnotic journey concludes, the subject is left captivated and yearning for the delights that await in the next phase. The desire to experience more of the spiral's pleasures and embrace their newfound submission intensifies, as they eagerly await the continuation of their mesmerizing adventure.

## **Part 2 – Enchanted Reverie**

Gradually, the darkness recedes, and the subject awakens to find themselves strapped into a chair. Their limbs and head are secured in place, and a helmet-like device covers their senses.

The device's connection to their brain makes them feel as if they are directly under the hypnotist's control.

"Welcome to the Brainwashing Academy" the hypnotist's voice soothes. "You are now fully mine to command, your mind attuned to my every word. There is no resistance, only a willingness to obey."

In the depths of the subject's trance, the hypnotist's voice weaves an intricate tapestry of arousal and submission. The helmet device's presence intensifies the sensations, amplifying the feeling of being directly under the hypnotist's control. The subject's senses are now finely attuned to every nuance of the hypnotist's commands, their consciousness malleable and eager to fulfill their hypnotic desires.

"Your mind is like a canvas, and I am the artist, painting my desires upon it," the hypnotist purrs, her words like a seductive caress. "Every brushstroke of my words leaves you more enthralled, more eager to obey."

The subject's breath quickens, a surge of arousal washing over them. They are powerless to resist the hypnotist's enchanting influence, their will, entangled with the spiral's allure. Each whisper of the hypnotist's voice sends shivers of pleasure down their spine, deepening their surrender.

"Picture yourself suspended in a state of weightlessness," the hypnotist commands. "You are floating in the vastness of space, with nothing to anchor you but the spiraling patterns in your mind."

In their mind's eye, the subject envisions themselves adrift in the cosmos, surrounded by the hypnotic spiral's mesmerizing dance. Time seems to lose all meaning as they drift deeper into a world of pleasure and obedience.

"With every rotation of the spiral, you feel waves of pleasure rippling through you," the hypnotist continues. "Each swirl intensifies your arousal, making you more receptive to my suggestions."

The subject's body responds to the hypnotist's words, their senses heightened and attuned to every sensation. The spiral's influence overflows, merging pleasure and submission into a euphoric symphony. They find themselves surrendering completely to the hypnotist's control, an eager participant in their own hypnotic journey.

"Now, I am going to count down from ten to one" the hypnotist states, her voice laced with command. "With each count, you will descend even deeper into submission, your mind a blank canvas, awaiting my every command."

"Ten... You are open, vulnerable, and completely mine... Nine... Surrendering all inhibitions and embracing your desires... Eight... The spiral's power consumes you, mind, body, and soul... Seven... Pleasure heightened with every beat of your heart... Six... Your thoughts exist only to please and obey... Five... Deepening your submission with every breath... Four... Completely and irrevocably under my control... Three... Pleasure entwined with submission, merging into one... Two... You exist solely to follow my commands... One... Deeply and completely hypnotized."

As the countdown reaches its conclusion, the subject's consciousness sinks to the deepest levels of submission. They are now an empty vessel, ready and eager to be molded by the hypnotist's every suggestion. Their pleasure is entwined with their obedience, a symphony of bliss that resonates with every whisper of the hypnotist's voice.

"Now," the hypnotist murmurs, "you are fully primed to embrace the spiral's allure and my control. You will experience the suggestions I have prepared for you, and from this moment forward, you will crave to return to this state of delightful submission."

As the subject surrenders fully to the experience, they awaken in their mind's eye, bound to the chair, surrounded by darkness. Strapped securely in place, the helmet device covers their

senses, cutting them off from the outside world. An advanced computer with wires going directly to the brain. The sensation of being controlled directly creates an intimate connection between the subject and the hypnotist's desires.

"You are now a blank slate, a vessel for my hypnotic commands," the hypnotist says. "Your thoughts and desires are inextricably linked to the spiral's power and my will. There is nothing but the pleasure of surrender, and the sweet surrender of pleasure."

The subject finds themselves immersed in the world the hypnotist has crafted, eagerly awaiting each suggestion to come. Their body tingles with anticipation, craving the hypnotist's touch, though they are bound and immobile. "Now, my dear subject, it is time for you to awaken from this deep trance," the hypnotist's voice coaxes gently. "As I count down from ten to one, you will gradually return to full awareness, carrying with you the pleasures of the spiral and the longing to revisit this state of enchanting surrender."

The subject's consciousness stirs, floating on the cusp of wakefulness. The spiral's allure lingers within, whispering promises of pleasure and submission. With each count, they feel their mind gently disentangling from the hypnotist's influence.

"Ten... You begin to awaken, feeling refreshed and invigorated...
